

MULTIHOG MX130

For grass mowing, sweeping, pressure washing and more.

Engineered for demanding environments, the MX delivers 89 kW and a 4,000 kg capacity in a quiet, operator-friendly design. With wide attachment compatibility and multiple cab sizes, it's ideal for airports, municipalities, and large-scale maintenance year-round.

Features:

- Articulated, heavy-duty build for year-round tasks
- Power: 75 – 89 kW, Tier 4i compliant
- Joystick-controlled hydraulics for smooth handling
- 360° cab visibility with A/C comfort
- Low noise (64 dB) and minimal vibration
- 7,000 kg GVW for large attachments

Unmatched performance in:

- Large sidewalks (MXC – 1295 mm)
- Large facility maintenance
- Municipalities, cities and towns
- Bike paths
- Airports
- Roads
